FOR IMMEDIATE RELEASE

Catalina Card Services launches the new InFusion Prepaid MasterCard® Card.

Danville, CA, February 1, 2011 – Catalina Card Services, an innovative provider of prepaid cards, today introduced the InFusion Prepaid MasterCard, a new payment card product that helps consumers safeguard their payroll, government benefits and cash.

The new InFusion Prepaid MasterCard works similar to a checkless checking account to provide fast and easy bill payment, safe FDIC insured deposits and card account access via a MasterCard card. However, InFusion goes a step further to also offer simple, quick and easy, low cost nationwide mobile phone services.

Matt Montes, President of Catalina says, “Our InFusion Prepaid MasterCard offers our customers a safe place to deposit their payroll or benefits in addition to the worldwide purchasing strength that comes with a MasterCard card. Our InFusion Prepaid MasterCard Card : Card is designed to appeal to those who are unhappy with their current financial institution as well as those working hard to get a fresh start. At InFusion, we only care about our customer’s future, not their past – so everyone* is welcome and we never do a credit or ChexSystem’s review.”

Montes who was the founder of AccountNow - one of the original and leading prepaid card companies in the U.S., has made it Catalina’s mission to push forward the development of prepaid cards with a focus on delivering value and features that exceed what is available today. Montes says, “Our goal is not only to offer valuable low cost financial services that work similar to a checking account but to also lower our customers’ total cost of living so that they can live better. Services like unlimited nationwide low cost mobile plans are just the beginning. Our InFusion Prepaid MasterCard Card is leading the way in prepaid advancement.”
